Aspire Global's annual report for 2017

Aspire Global's Annual report for 2017 has been announced and is available on the company website.

The newly published annual report for 2017 describes Aspire Global's investment case, financial performance and future potential.

"In 2017 Aspire Global reached record heights. Revenues rose 18% to €71.9 million (61.0) and EBITDA rose 25% to €14.3 million (11.4). This was achieved in parallel to some extraordinary events, such as the IPO, which required our close attention on top of the core business. If we entered the previous year with an ambitious agenda, it is nothing compared to expectations for the coming year. We will monitor Sportsbook's performance during the World Cup, prepare the application for a Swedish license and assess potential acquisitions closer. At the same time, day-to-day operations continue, and we are preparing new B2B launches while giving Karamba additional attention", says CEO Tsachi Maimon.

The company's investment case and future growth potential is in focus in the annual report.

"Aspire Global has a unique position in the iGaming market as the first provider of a full turnkey solution for operators of sportsbooks and casinos, let alone one with operations in six regulated markets. We are looking forward to realizing the grand agenda for the coming year, aiming at continued strong growth on a yearly basis", says Chairman of the Board Carl Klingberg.

The annual report is available to download on the company website following this link
