

Aspire Global adds Red Tiger Gaming to its gaming content portfolio

Aspire Global, the complete iGaming solutions for operators and white labels, is pleased to announce the addition of Red Tiger Gaming to its gaming content portfolio.

The launch of Red Tiger's cutting-edge casino content will be a further enhancement to Aspire Global's partners network and will include the group's unique slots portfolio and latest games such as the hugely popular Pirates' Plenty; in the UK and Denmark as well as across international markets.

The integration of Red Tiger Gaming is a further quality addition to Aspire Global's gaming platform, which continues to be strengthened by the arrival of high-quality and innovative games producers such as Red Tiger.

The agreement follows the recent news of Aspire Global's acquisition of gaming content aggregator Pariplay and means partners will now have even more choice and variety on offer for their players. They also benefit from Aspire Global's best-in-class CRM system to develop player lifetime values and lower churn.

Jov Spiero, Vice President of Sales at Aspire Global, commented: "The addition of Red Tiger games is a further enhancement to our strong portfolio; and enables players to choose from the best providers in the industry direct from the Aspire Global platform. We are confident that the combination of Red Tiger's record of innovation and quality game development and our growth-driven platform will be a great success."

Chris Looney, Commercial Director at Red Tiger, said: "We are very pleased to sign up with such a strong platform provider like Aspire Global. We are always looking to expand the reach of our industry leading content portfolio and products into regulated markets and we believe a strong relationship with Aspire will provide that."
