## Aspire Global's annual report for 2019

Aspire Global's Annual report for 2019 including the Sustainability report has been announced and is available on the company website.

The newly published annual report for 2019 describes Aspire Global's investment case, financial performance and future potential including the recent initiatives to expand the B2B-offering. Over the past year, the company took a holistic approach to sustainability, both in terms of operations and reporting, and is proud to present the first Sustainability report according to the GRI-guidelines.

*"Aspire Global continued to deliver on the growth strategy in 2019, increasing revenues by 26% to €131.4 million with an EBITDA margin of 16.5%, in line with the financial targets. Having been profitable since the foundation in 2005, in combination with our strong cash position and ability to generate cash, makes us confident about the continued execution of our growth strategy. The acquisition of Pariplay, including the integration of their game studio and game hub, expanded our B2B-offering and reinforced our position in the value chain. We are now well equipped to offer companies everything they need to operate a successful iGaming brand, whether it is a platform, services, proprietary games or access to a game hub. We have it all – as separate units, add-ons or as a complete offering",* says CEO Tsachi Maimon.
