

PRESS RELEASE 3 JULY 2020

ASPIRE GLOBAL LAUNCHES INDUSTRY-FIRST SPORTS TOURNAMENT WITH PLAYER CONTROL

[Aspire Global](#) has launched AspireBattle, an industry-first sports betting feature that offers tournaments covering all major sports. The feature includes player control with, for example, time out functionality in order to secure a safe player environment.

AspireBattle provides sports bettors with the ability to participate in tournaments, covering all major sports. Players can also create their own personal tournament and invite friends to bet live and compete for the top place on the leaderboard.

Following Aspire Global's strong focus on responsible gaming, AspireBattle monitors players' behaviour and times out participants who suffer significant point losses and dip below a specified negative points total.

AspireBattle has been implemented on Karamba's sports betting site and is now offered to other sports sites. It can be integrated into any iGaming platform looking to enhance the sports offering through a truly innovative product.

Morten Hauge, Head of Sports at Aspire Global, said: "We are pleased to once again bring to the market an innovative and unique feature in the sportsbook vertical. The sports gamification invention was created to complement players' ordinary sports betting and to act as the 'perfect side dish'. We are especially happy about the player control functionality which is reflecting our strong focus on responsible gaming."
